Any technical problem, please contact our after-sales team [support@arzopa.com]

⚠ Precautions

1. The monitor cannot be placed on a bed, sofa, blanket or similar surface, nor close to a radiator or heat source. It cannot be placed in a bookcase or box unless ventilation is ensured.
2. The monitor's power supply voltage range is printed on the label on the back case. If you are unsure of the power supply voltage, please consult your distributor or local power company.
3. When the monitor is not used for a long time, please cut off the power supply. It can prevent damage from electric shock and abnormal power supply voltage during thunderstorms.
4. Do not place the monitor near water sources, such as bathrooms, dishwashers, kitchens, washing machines, swimming pools, or in wet basements.
5. Do not place the monitor on an unstable car, chair, or table. If the monitor falls, it will injure the user and may cause damage to the equipment.
6. Store the monitor in a cool, dry and well-ventilated place, and keep it away from emissions and heat sources.
7. Do not disassemble or repair this product by yourself to avoid electric shock. If a malfunction occurs, please contact after-sales service directly.
8. Do not pull or twist the power cord forcefully.
9. Do not put foreign objects into the machine. It may cause a short circuit and lead to fire or electric shock.
10. Please use a reliable grounded socket and do not overload the socket, otherwise it may cause fire or electric shock.
11. There is a polarizing layer (not a protective film) on the screen surface. Do not peel it off or the product may be damaged and the warranty will be void.
12. This product is not recommended for using by children under 8 years old, unless under the supervision and guidance of their guardians.
